JavaScript, TypeScript, CSS, HTML, React, React Native, Design Systems, Developer tooling, Information design, D3 interactive graphics.

EXPERIENCE

Bulb Energy, London (UK) - *Full Stack Engineer*

NOVEMBER 2018 - MARCH 2022

- Worked with the design system team to create a design library for the frontend developers.
- Helped build a CMS based system using Gatsby and Contentful for managing the marketing website for the UK marketing team.
- Worked with the international team to expand the company's reach in the markets outside the UK - Spain, France and Texas, by building three SPAs using React for the international markets.
- Helped build a new web based product for the international team allowing the customers in Spain, France & Texas to self serve and manage their account, monthly bills and energy usage.
- Worked on a greenfield project which involved using React Native to create a brand new mobile application for iOS and Android for the international market.

Trainline, London (UK) - *Web Engineer*

MARCH 2022 - PRESENT

- Added a new feature in the Railcard application which allowed customers to renew their Railcards once they are expired.
- Improved the web Railcard purchase experience in France and UK.

EDUCATION

University of Petroleum and Energy Studies, Dehradun (India) -
